We are making a stock trading platform. You buy stocks, have a persistent inventory of stocks, and sell stocks. The website will have analyses of your position and the general market.

## Navbar

The screenshot shows a navigation bar for a website called "GatorTrade". The bar is divided into several sections: a logo on the left, a search input field with a placeholder "find stocks...", a search button, and three dropdown menus labeled "Home", "Stocks ▾", and "About ▾". On the far right, there is a user profile icon labeled "Guest". Below the bar, there is a large white area containing explanatory text about the search function, the "About" dropdown, and the "Guest" profile.

## Products/services

The screenshot shows the StockMarket website interface. At the top, there is a navigation bar with the logo "StockMarket", a search bar, "Portfolio", "Log In", and a "Cart" button with a notification count of 3. Below the navigation, there are categories: "All Stocks" (selected), Technology, Finance, Healthcare, Energy, and Consumer Goods. There are also filters for "Price Range" and "Performance". A legend indicates "Gainers Today" (green), "Losers Today" (red), and "Most Active".
